Brief

In the 5000-year-old tradition of Indian cooking, the cultural and geographic boundaries of India have changed significantly. The cuisine also evolved over time, influenced by many invaders, travelers and rulers. India's diverse regional cuisines have become richer with the assimilation of these various cultures.

India is known to have it's own special dish from every city of every part of the country. After being the head chef at Delhi Belly for 2 Years and owning it since 2017, Our (still) head-chef Mr. Singh aims to continue bringing you the taste from back home which he has perfected working for over 20 years around the world.

If you want to try original Indian food with a twist, make sure you order one of Chef's Special from the Menu or anything, really!

Mr. Singh
